

## ANNUAL 100 PERCENT PRESUMED DEPLETION LANDSCAPE IRRIGATION AUGMENTATION PROGRAM

### **Purpose:**

To provide an Augmentation water supply for establishment and maintenance of low water consumptive vegetative cover for weed and dust control or to establish a native grass crop. Renewal will be annually subject to the following terms and conditions.

Requirement of Program Participants:

### **Participant Class 1**

Located within the areas describe in UAWCD's decreed augmentation plan.

Depletion impacts must be to the Arkansas River Main Stem within the 92CW84 plan area.

Participants must already be enrolled in the UAWCD Standard Augmentation plan with a permitted well.

Enrollment in UAWCD decreed plan for augmentation

### **Participant Class 2**

Located within the boundaries of UAWCD but not within the areas describe in UAWCD's decreed augmentation plan

An approved Substitute Water Supply Plan pursuant to Colo. Statute 308 (3), 308(4), or 309(5).

A determination by UAWCD that the approved SWSP will not injure water rights in the UAWCD.

### **Program Description:**

- Water will be provided annually on an "as available" basis as determined by UAWCD.
- Plan participants must renew their commitment not later than February 1 of every calendar year.
- Depletions shall be presumed to be 100%
- Water use by the diverting structure under this plan must be separately measured or metered.
- Water provided through UAWCD augmentation plan *minimum purchase is 5 acre feet*.
- Water provided through lease agreement *minimum purchase is 10 acre feet*.
- Exempt Uses & Non-Exempt Uses are not allowed on the same well.
- If augmentation water becomes unavailable in a given year UAWCD will notify the SEO and DEO to coordinate curtailment.

### **Cost:**

Cost is determined annually by UAWCD's Board of Directors.

Annual Application Fee: \$200 per application (initial purchase only)

Per Acre Foot Water Cost: W/Augmentation - \$260.00; W/Lease & SWSP- \$180.00
